

VERONA BOARD OF EDUCATION

DAVIS VISION BENEFITS VS MEDICAL BENEFITS

- AmeriHealth New Jersey Vision Care, administered by Davis Vision provides members access to more than 60,000 ophthalmologists, optometrists, as well as regional and national retailers, including Visionworks optical retail centers.
- Davis Vision benefits would be used in cases of:
 - Routine Eye Exams
 - Hardware, including Frames and Lenses
 - Contact Lenses
 - The Davis Vision provider directory allows for members to identify what services each participating provider is able to dispense: exams, hardware, or both. <https://idoc.davisvision.com/DavisVision.Member/FindAProvider/Index>
- AmeriHealth NJ medical benefits would be used in cases of any eye ailments and injuries.
 - There needs to be a *medical diagnosis* in order to for the medical benefits to be used.
 - If you are diagnosed as a result of your routine eye exam (paid through Davis Vision) with a medical ailment you will then need to seek care from an AmeriHealth in network provider because the claim will go through your medical insurance.
- You *can* obtain a routine eye exam from your ophthalmologist as long as they are participating with Davis Vision.
